

# Oak Class Weekly News

W/B 24<sup>th</sup> September 2018

## This Week...

As the weather was much better, we managed to go on our trip to Avenham Park. The pupils tried hard with their sketching and enjoyed looking out for signs of the changing season. Fatimah's sketch was brilliant with clear shapes and lots of detail.

You may know that we have been doing a run around the yard as part of our daily exercise. Pupils have enjoyed this and have managed to make improvements already. Wali has done particularly well – well done.

In maths, we have been comparing and measuring lengths and weights. Some of us have been reading the centimetre scale on longer rulers – amazing work! Fin worked really hard and put objects in size order without any help.

In science, we have been looking at how light travels in straight lines – we enjoyed using torches and looking at the shape of the beams to investigate. Poppy and Aimee were really good at tracing the lines of light.

We made some amazing pasta with a tomato sauce in food tech this week – pupils worked hard and enjoyed trying the final product. Sophie was excellent in the kitchen, as usual!

## Next Week

**Monday 1<sup>st</sup> October** is an INSET Day. Pupils will not be in school as there is staff training.

On **Thursday 4<sup>th</sup> October** we will be having a MacMillan Coffee Afternoon in class at 1.30pm. We would like to invite parents, carers and other family members to attend. If you could send in any cakes/biscuits for this event, it would really help with fundraising for MacMillan.

## Reminders

£1 towards snacks and food technology items per week - thank you.

If you have not already done so, please send in the data sheets with important information about your child.

As we are no longer using diaries, please remember that you can phone or email us with any messages or questions you have - [worsleyd@acorns.lancs.sch.uk](mailto:worsleyd@acorns.lancs.sch.uk)

Some parents have been asking about the procedure for applying for secondary school - you do not need to apply in the same way you would for mainstream school - we will explain what you need to do at your child's annual review.

## And finally...

Thanks for the homework on transparent, translucent and opaque materials.

This weekend, you may wish to talk about and find some long, short, heavy and light items at home, and draw a labelled picture of them. If you have a ruler or scales, you may even wish to measure or weigh them!

Have a good weekend!

Oak Class team
